Accident insurance covers all drivers and handlers who are regular members of QMA. A family membership is defined as a husband, wife and all children of that immediate family that live in the household. No more than 3 drivers listing a different last name or residence may be listed on a family membership. Children under the age of five (5) ARE NOT covered by this insurance. Additional handlers are not included in family membership; these handlers must be members of QMA to be covered by accident insurance. No person will be allowed in the hot chute or on the track surface that is not a member of QMA. Please list all members of immediate family (husband, wife, children and drivers) to be covered.
